Bathroom furniture is water resistant but not waterproof

All spillages and splashes should be wiped dry; failure to do so may shorten the product's life expectancy and invalidate any guarantees.

BATHROOM
FURNITUR
E

COMPACT MARBLE

Our composite marble worktops are moisture and stain resistant, in addition to being resilient to cracks, chips, scratches and even extreme temperatures. These long-lasting qualities, combined with gorgeous colours and finishes, make these worktops the seamless choice for bathroom environments in both commercial and residential settings.

Combining a worktop option with our Millie, Darcy, Onyx and Diaz units and your choice of basin and tap allows you to create a unique colour combination and style to suit your bathroom setting.

- Anti-slip base for added peace of mind
- 10mm tempered glass door treated with transparent water stain protector
- Manual locking system with simple to operate push and pull mechanism (20 Newtons / 4.5lbs of pressure)
- Metal components (handle, lock and hinges) manufactured in polished Stainless Steel Alloy - Grade 304
- Twin waste for 40% quicker drainage and added safety

Our specialist range of low threshold easy access baths are designed to take the worry out of bathing. Manufactured to the highest standard, you can relax in the knowledge that our baths are designed with your comfort and safety in mind.

Offering contentment Acknowledges a variety

- Encapsulated baseboard routed and shaped to cover the full base of the bath including around the plug hole
- Supplied boxed with support frame and factory fitted adjustable legs
- Marine grade gel coat surface with laminated glass roving backing

WALL PANELS 249

WALL PANELLING

Two Steps To Create Your Waterproof Showerwall System:

1. Decor - Select your decor from one of our collections

Our new WBP (Weather and Boil Proof), Laminated Plywood and PVC Panels are manufactured with ProClick technology.

2. Panel Details - Square Cut or ProClick

Square Cut is a traditional panel and uses a Jointing Trim where two or more panels are required side by side.

ProClick technology has been engineered to create a mechanical locking system that provides seamless, almost invisible joints.

Installation is made easy through the click design which allows panels to be located quickly and easily into place, eliminating the use of joining trims.

3. Waterproof System - Trims and Sureseal

In order to ensure a watertight finish, trims are required for the outer edges of the panels as well as both internal and external corners.

Four trims are available dependant on where you would like to fit our panels. Note: all trims measure 2450mm in length and should be sealed using Showerwall sealant.

Internal Corner Trim
Used on all internal 90° corners.

External Corner Trim
Used on all external 90° corners.

Square and Quadrant End Trims
Finishing end trims for square cut edge panels.

Sureseal

At the base of the PVC or Plywood Showerwall panel, even greater sealing performance is achieved using Sureseal.

This seal ensures four points of cover; made up of an enclosed sealant line protected by a neat trim with both front and end capping.

Available to order in Black, White and Satin Silver.

We recommend Showerwall's own brand of adhesive is used for the effective fitting of the product.
